- Ability to work in highly dynamic environment with high degree of ambiguity
- Excellent communication skills with ability to simplify complex insights for end users

February 2021– October 2021 **Associate Analyst (Full Time Equivalent).**

Infosys.

Project for the UAE based client :

- SAP-Alteryx integrated development from financial and sales modules.
- SAP systems configurations and synchronizations.
- Administering SAP kernels, t-codes, client SAP financial and sales modules.
- Daily, weekly and monthly SAP-Alteryx integrated developed workflows feedback by preceding in an agile methodology.
- Analysis and testing of client's SAP testing, pre-production and production kernels, financial and sales modules.

- Integrating SAP-Alteryx based on transaction code and sap tables level, fetching reports.

Project for the USA based client :

- Project explored various services available on the Microsoft Azure and Google Cloud Platform (GCP)
- Text analytics, language translation using azure natural language api's and their integrations with python scripts.
- Google cloud Natural Language API and AutoML Natural Language.
- Developing chatbot using Microsoft bot-framework, python, and javascript that answers questions
- Testing, bug-fixing, analyzing developed machine learning, artificial intelligent solutions for the client.

Project for the China based client :

- Training, re-training machine learning models using python and dedupe packages which can understand the difference between duplicate and non duplicated records based on client's previous months data creating and setting up features with help of project stakeholders and domain experts.
- Finding duplicates, clustering them on client's data using dedupe and python.
- Created and maintaining Power-BI dashboard systems on a frequent basis for analytics reporting and monitoring.
- Collaborating with project stakeholders and domain experts on a daily basis to get requirements and delivering results.

November 2019– February 2020 Data Analyst (Full Time Equivalent).

Nokia.

- Visualization techniques for provisioning a clear view of data patterns and conclusions to support fact-based decisions. Machine Learning algorithms. Python (sklearn, pandas,scikit-learn etc etc.), or R data science libraries.
- Automation with scripting to support data organization and decisions.
- Creation of user-friendly tools visualizing the financial domain of the benchmarked product or service.
- Gathering requirements for future improvements in data analysis, automation, visualizations and business understanding.
- Willingness to learn about data-driven decisions in commercial management
- Open-mindedness, creativity and ability to think outside the box
- Being comfortable with writing scripts in Python, R and Excel VBA.
- Analytical thinking skills.
- Teamwork skills.
- Good communication in English (both written and spoken)

July 2018 – October 2018. IT Support Specialist (Full Time Equivalent).

Iserv Solutions Limited.

- Solid relational database skills (Oracle PL/SQL)
- Good Linux, Bash scripting skills
- Strong development concepts
- Experience with testing of the end-to-end solution and validating results with business analyst
- Knowledge of large data warehousing and reporting systems, relational databases, middleware and web technologies.
- Working experience of multi-site / environment deployments.
- Contribution to project planning and management activities including estimation, change management, tracking etc.
- Excellent analytical skills.
- Experience in financial services / investment banking environment and products.
- Knowledge and experience of Software development methodologies (Waterfall, Agile).

- Important Points to be considered with regards to Advanced PL/SQL Skills
- Function
- Knowledge of Trade Lifecycle
- End to End knowledge of Financial Accounting & Reporting

COURSES AND CERTIFICATIONS

DP-203: Data Engineering on Microsoft Azure

AZ-900: Microsoft Azure Fundamentals

AI-900: Microsoft Azure AI Fundamentals

EDUCATION AND DEGREE

October 2016– July 2019: Bachelor's Degree - Business Information Systems

(4,33 / 5,0) Wrocław University of Technology Faculty

of Computer Science and Management (W8)

Foreign language(s)

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken interaction	Spoken production	
English	C1	C1	C1	C1	C1

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user

Nationality: India

Religion: Hinduism
